

COVID-19 Update

In these uncertain times, we wanted to update you about what we are doing here at our office to ensure the safety of our patients and staff. As the situation around the coronavirus and COVID-19 continues to evolve, we are doing everything we can to ensure your safety and provide maximum flexibility.

As it has always been, the safety of our patients and team members remains our highest priority. We have always taken great pride in maintaining the highest standards of cleanliness and hygiene. In response to the coronavirus, we have taken additional measures recommended by local, state and national public health authorities to make our cleaning and hygiene protocols even more stringent.

We are asking all patients who have traveled in the last fourteen (14) days or who feel ill, have a sore throat, fever or cough to reschedule their appointment. Whenever possible, please attend appointments alone or with one transporting party. We ask that you wear a face mask and use hand sanitizer upon entering our office. There are sinks available for use before and after your eye exam, and when handling contact lenses.

Your patience and understanding as we continue to develop health and safety measures for our practice to best serve you is greatly appreciated. We look forward to a swift and safe return to normal operations. If you have any questions or concerns, please do not hesitate to call us at 561-627-6113.

Sincerely,

Dr. Douglas Stephenson
